PART A	
Familiarisation Session	9:00am to 12:30pm
Commencing with RED each colour group will have at least ONE 20 minute session.	
<i>Passengers permitted</i>	

Fast Touring Only

Vehicles with passengers cannot compete and are not timed. This session of the day is for circuit familiarisation, driver training and practice. It is strictly a "learning period" and no flat out driving will be tolerated. Cars are expected to be driven at no more than 80% of the driver's and cars capacity. Offenders will be black-flagged.

Instructors and Passengers

During this session Instructors/Passengers approved by the Event Director are permitted in cars. Approved helmets and clothing are to be worn by all persons on the circuit at all times. These sessions are particularly suitable for those drivers with little or no circuit experience and who may prefer to drive their car conservatively. Use this as an opportunity to familiarise yourself with the circuit. Do NOT be tempted to "compete" with other cars. Drivers will be grouped by driver experience, vehicle type and comparable speed.

Entering the circuit

Drivers will be called over the PA by colour group (see Regulation 17) and assemble in the Marshalling Area. Cars will be released onto the circuit one at a time from the Marshalling Area on the hand signal of the Start Marshal who will create a suitable gap between each successive car. Whilst up to 20 cars are permitted it is expected that no more than 16 cars will be on the circuit at one time.

Overtaking

Where one car gains on another, overtaking may only occur on the straight sections of the circuit and then ONLY if the driver of the leading car indicates by pointing his hand to indicate the side of the car on which the overtaking manoeuvres is to occur. WATCH YOUR MIRRORS REGULARLY. Be aware of the cars around you.

Strictly NO passing under brakes or in corners

All drivers must watch for faster cars gaining on them and must, AS SOON AS IT IS SAFE TO DO SO, indicate to the gaining car by pointing on which side the car is to pass. Maintain your line and SLOW to let the overtaking car pass.

No Tailgating

Following cars are not to tailgate the leading car while waiting for the "OK" to pass and must stay back at a safe distance. Do not allow a group of cars to bunch. If cars do bunch behind you, move to the side, SLOW, and allow the cars to pass. These procedures will be STRICTLY ENFORCED and persons found not adhering to them will be immediately excluded from the event.

Exiting the Circuit

Drivers may exit the circuit at any time during this session. Care must be exercised when leaving the circuit and exiting to the Paddock by the EXIT on the main straight. Provide a hand signal by raising your hand prior to your exit.

End of Session

The chequered flag will be shown at the Start/Finish line to indicate the end of the session. Slow down and continue round the circuit and exit the circuit via the EXIT on the main straight and return to the Paddock.

PART B	
Timed Laps Session	12:30pm to 5:00pm
12:30pm to 1:00pm	Demonstration (if any)
1:00pm to 5:00pm	Timed Laps

Practice Session/Demonstration

This time may be set aside for the demonstration of new or historic vehicles as part of a club promotion. In the absence of such a demonstration, Timed Lap sessions will commence in their place. Drivers will be advised of final arrangements at the Drivers Briefing.

Timed Laps

Drivers ONLY in this session. As in Part A, cars will be called by Colour Group to assemble in the Marshalling Area and will be released onto the circuit one at a time, from the Marshalling Area on the hand signal of the Start Marshal. There will be a suitable gap between each car. Each run will comprise four or more timed laps and up to 20 cars are permitted on the circuit at any one time. The Start/Finish line is the timing mark. Maintain the starting interval with the car in front of you during the warm up lap. CARE must be taken if you overtake another car during your run and when slowing down at the end of the run. The chequered flag will be waved at the Start/Finish line to indicate the end of your session, irrespective of the number of laps you may have completed. Slow down, continue briskly round the circuit and exit the circuit via the EXIT on the main straight. The number of flying timed laps may be greater than FOUR and Drivers will be advised as appropriate on the day.

- 30 TIMING SYSTEM: THE CLUB SUPPLIES DORIAN TRANSMITTERS
Timing will be by means of Dorian Transmitter or the club's electronic timing system if not available. Failure to return the club supplied Dorian transmitter undamaged in good working order as provided to the driver will incur a financial penalty for repair or replacement and or a late fee if not returned on the day of the event. Drivers may provide their own Dorian transmitter; providing the Dorian # is shown on the entry form. Queries relating to times should be directed to the Chief Scrutineer. Timing is to assist the Clerk of the Course when determining any changes to colour grouping. At no time may any person enter the timing box, except on the express authority of the Secretary of the Meeting or Clerk of Course.
- 31 TIMING - SHARED VEHICLES:
When Timing is by Dorian Transmitter, times will be based on the transmitter fitted to the vehicle, but if by the club's electronic timing system, then all times will be recorded against the CLUB NUMBER displayed on the vehicle window. Where two or more drivers share the same car, CARE should be taken at the time of EACH driver change to ensure that the correct CLUB NUMBERS are affixed to both sides of the car and the correct Dorian transmitter is fitted BEFORE entering the Marshalling Area .

Do you own a Dorian Transmitter?

The Maserati Club of Australia, Inc. has decided to use Dorian Transmitters* for timing purposes for all events we conduct at Sandown, Phillip Island and Winton.

If you don't own a Dorian Transmitter you have only one thing to remember ... leave the space for the DORIAN No on the Entry Form BLANK! Just come along as you normally do and we will provide you with a Dorian Transponder for use on the day at Scrutiny. The Dorian will be placed in a 'Safeway' type shopping bag and secured by race tape via the passenger door and sill causing no harm or damage to your vehicle's passenger door panel or sill or paintwork. If you plan on coming to a number of the club's track days you might enquire about getting a permanent holder for the Dorian affixed under your car ... they're available from the club for a nominal cost.

If you do own a Dorian Transmitter you have to decide whether or not you want to use your Dorian or have the club supply one for you to use on the day. If you decide to use your own Dorian then you MUST record your Dorian No in the space provided on the Entry Form. Alternatively, if you decide to let the club provide the Dorian, just leave the space for the Dorian No on the Entry Form blank.

Here's the good news. There is no charge for using the Dorian Transmitter provided by the club ... provided, of course, you return it at the end of the day. FAILURE TO RETURN THE DORIAN IN GOOD UNDAMAGED WORKING ORDER CAN BE VERY EXPENSIVE ... THINK ABOUT \$400.00 ...IT COSTS \$0 .00 IF YOU RETURN IT INTACT.

Here's the bad news. NO Dorian, NO run. If for some reason you don't wish to have a Dorian fitted to your car for the event, then the club will provide a refund of the Entry Fee paid. In the interests of competitor safety we need to maintain an active timing system that includes all competitors.

DORIAN DATA-1 TRANSMITTERS

Dorian Micro Data-1 Transmitter

Dorian Data-1 Transmitter

Dorian Industries provide two types of transmitters for motorsport purposes. Either type can be used at club track days.
